

Results of the good and bad
practices of PI WS Eurasia SPI
Ostrava 2017

What we have seen – What have we seen?

- SPI Manifesto: Quo vadis?
- SPI BOK: Template helps to improve the value of papers
- Academic and Professional Training: SPI manager Skill Card to be used as a template for case studies
- SQIL: Process QA beyond Automotive SPICE

Provocations? Or Funeral the SPI manifesto

Business value	Over	Formal process satisfaction Theory Capability / maturity Levels
People involvement	Over	SEPG Leadership
Change	Over	Compliance Waste
Adaptation of new conditions / Options / Risks / Opportunities	Over	Fixed long term plans
Future orientation and sustainability	Over	Short term pressure
Pragmatic performance	Over	Formal criteria fulfillment
Practical experience	Over	Theoretical assumptions
Survival	Over	Manifestos
Software Engineering	Over	Blind Hackers
Clear terminology	Over	Buzzwords
